Dear [redacted]

Your application for employment has been reviewed by the operating officials who seemed most likely to be able to take advantage of your past training and experience.

We believe you will realize that the requirements of this Agency are highly specialized as regards facility in the use of a foreign language or particular knowledge of given areas, and in general where these special requirements are not met, the only positions available are of a clerical nature and commanding a salary which would not be of interest to you.

Unfortunately nothing has developed in the way of a position suited to your qualifications and we are forced in consequence, to our regret, to advise you that the possibilities have been explored without favorable result.

Sincerely yours,

[redacted]
Chief, Personnel Procurement
